

Anchor Chain Stainless Steel DIN766

You are welcomed to come to our factory to buy the latest selling, low price, and high-quality Anchor Chain Stainless Steel DIN766, Power marine looks forward to cooperating with you. We use German standard DIN766 anchor chain to ensure that it is mirror-polished high-quality stainless steel 316 anchor chain. We are a professional Marine hardware manufacturer for 25 years, and our products cover most of the European and American markets. I am looking forward to being your partner in China.

Anchor Chain Stainless Steel DIN766

Product Introduction

Welcome to our factory to buy the latest sales, low price, high quality anchor chain stainless steel DIN766, Power marine will provide you with high quality products and services. DIN766 is a widely recognized standard for anchor chain, known for its high strength and durability. Using the anchor chain stainless steel DIN766 ensures that the chain is well-suited for the intended boat size and anchor type, providing reliable anchoring and peace of mind. It is essential to select the appropriate size and length of the anchor chain based on the specific requirements of your boat and the anchoring conditions you may encounter.

Product Parameter (Specification)

Boat Length	Boat Weight	Chain Diameter
20 to 25 feet	2,500 lbs.	3/16-inch
26 to 30 feet	5,000 lbs.	1/4 -inch
31 to 35 feet	10,000 lbs.	5/16-inch

Product Feature And Application

Anchor chain stainless steel DIN766 is a specific type of anchor chain that meets the standards set by the Deutsches Institut für Normung (DIN) in Germany. It is made of stainless steel, which provides excellent corrosion resistance and durability in marine environments. The DIN766 standard specifies the dimensions, strength, and performance requirements for anchor chain, ensuring its safe and reliable use for anchoring boats and ships. This type of Anchor Chain Stainless Steel DIN766 is commonly used in various marine applications due to its high-quality construction and resistance to rust and corrosion.

Product Details

To ensure the longevity and performance of Anchor chain stainless steel DIN766, regular care and maintenance are crucial. Rinse the chain with fresh water after each use to remove salt and debris. Inspect the chain for any signs of wear, such as rust or broken links, and replace as necessary. Lubricate the chain periodically with a marine-grade lubricant to reduce friction and corrosion. Anchor chain plays a vital role in anchoring a boat securely. Its strength, corrosion resistance, and proper size and weight are crucial factors to consider when selecting and maintaining anchor chain for your boat.

Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
